

Development Trends in Space Propulsion Systems

18-19 October 2013, Warsaw, Poland

General Information

The 8th "Development Trends in Space Propulsion Systems" International Conference is a continuation of the series of successful events held during the previous years at the Space Research Centers of the Polish Academy of Sciences. This year the Committee has the pleasure to invite all Space Propulsion Industry representatives and science experts to the Institute of Aviation for this unique event.

Institute of Aviation
110/114 Krakowska Avenue
02-256 Warsaw, Poland
(+48) 022 846 00 11

Paper submission

Authors are invited to submit manuscripts describing technical contribution in the areas of:

- National and International development of space propulsion technology and launch systems
- Basic processes in space propulsion systems
- Rocket dynamics
- Solid, liquid and hybrid propellants
- New concepts of rocket thrusters and others

All papers must be written in English and compliant with "Information for Authors".

Deadlines

- June 01, 2013 - Early Registration Fee
